ADVANCED FEATURES

ONE TOUCH RECORDING  While in standby mode or turned off, simply press the record button on the camera to start recording. LED indicators and vibration alerts will notify you when recording has started or stopped.

1296P SUPER HD VIDEO + WDR  With the ability to record in crystal clear 1296p video. WDR (wide dynamic range) will optimize the quality and increase the level of detail in both bright and dark areas.

32 MEGAPIXEL CAMERA  Features a 32MP camera with a burst shot option of 3 or 5 photos, the built-in memory can store thousands of high quality images instantly. Pictures can also be taken while the camera is recording.

WIDE FIELD OF VIEW  Record every detail with this camera's 140° wide angle view.

CHARGING STATION  The drop-in charging cradle utilizes specialized pogo pin contacts that outperform other connection types. Charge and transfer data simultaneously.

LIGHT WEIGHT  Only 3.7 ounces.

PRE AND POST EVENT RECORDING  Allows you to record videos 30 seconds prior (in 1080p mode) to the point when you press record, so you never miss a moment.

HEAVY DUTY CASING  Durable performance in any environment. Drop proof up to 10 feet and waterproof up to 3 feet. 1/4" thread built in for many mounting options.

LARGE STORAGE SPACE  32GB of storage space (64GB special order).

AUTO INFRARED  Automatic night vision recording allows you to see up to 32ft in pitch black conditions.

TIME/DATE/ID STAMP  Password protected date and time stamp option on every video with officer ID that can't be tampered with.

DEVICE LOGGING  When transferring videos the included files have their own unique device ID, log files, and video/photo files organized into folders so you can easily find the evidence you need.

ACCESSORIES
Standard: USB Cable, Car USB Charger, Wall Charger, Manual, Metal Body Clip, Drop-in Charging Cradle, One Year Manufacturer Warranty
Optional: PatrolEyes 8 camera docking station, PatrolEyes camera management software with auto upload feature, PatrolEyes cloud storage & backup, PatrolEyes online evidence management suite with video redaction, PatrolEyes protection plus program, PatrolEyes magnet mount clip
PatrolEyes delivers superior quality, the longest battery life, and the most features at half the cost!

**ADVANCED FEATURES**

**ONE TOUCH RECORDING** While in standby mode or turned off, simply press the record button on the camera to start recording (when record mode is set to auto). LED indicators and audio alerts (can be disabled) will notify you when recording has started or stopped.

**1296P HIGH DEFINITION** The SC-DV7 allows you to record in up to 1296p HD, as well as 1080p in up to 45fps and 720p in up to 60fps. Paired with the camera’s wide angle view, you will capture every detail.

**EXTENDED BATTERY LIFE** Record for 6.5 hours in full 1080p resolution on a single charge!

**32 MEGAPIXEL CAMERA** Features a 32MP camera with a burst shot option of 5, 10, or 20 photos, the built-in memory can store thousands of high quality images instantly. Snap pictures while the camera is recording as well.

**PRE AND POST EVENT RECORDING** Allows you to record videos up to 1 minute prior or 10 seconds after the point when you press record, so you never miss a moment.

**MULTIPLE NIGHT VISION OPTIONS** Built in infrared LEDs can be turned on or off with the push of a button. Record up to 30 feet in pitch black with the infrareds activated or disable them for covert low light recording while still in night vision mode.

**MULTIPLE FIRMWARE OPTIONS** Allows you to manage your camera in multiple modes -- choose between our password protected version or non-password protected version firmware.

**MOTION DETECTION RECORDING** Allows for recording whenever the camera detects motion so you never miss the action.

**WIRELESS REMOTE CONTROL** Allows for recording audio and video or taking photos without ever needing to touch the camera. Remote has 3 easy to use buttons and a key ring for easy mounting to your belt or keys.

**INCLUDED CHARGING STATION** The drop-in charging station allows for easy charging of the camera.

**TIME / DATE / ID STAMP** Date and time stamp option on every video with officer ID, which can’t be tampered with. Can also be password protected.

**EXTERNAl VIEWING** The 2.5” color LCD screen with built in speaker allows you to view video and audio recordings instantly. AV out port and a micro HDMI port allow for viewing data on a larger screen.

**DEVICE LOGGING** When transferring videos the included files have their own unique device ID, log files, and video/photo files organized into folders so you can easily find the evidence you need!

**WALKIE TALKIE (PTT FUNCTION)** The PTT function with compatible cable allows you to replace your shoulder microphone so you can connect the PatrolEyes HD to your walkie talkie. View our list of PTT walkie talkie compatible models.

**HEAVY DUTY CASING** Waterproof up to 3 feet and drop proof up to 6 feet!

PATROLEYES P O Box 709 Ada, MI 49301 616-258-6315 sales@patroleyes.com
• Unlimited File Storage
Unlimited file storage for all of your body camera footage and evidence.

• Secure Storage and Transfer
Using TLS 1.2 and AES encryption we are able ensure your data is safe and can never be viewed without the proper authorization. Our solution is completely CJIS compliant.

• Advanced Data Management
Assign case IDs, tags and descriptions to any file. Data can be searched by file name, officer, case ID, custom tags and keywords.

• Evidence Redaction
Our built-in redaction platform features automatic detection and redaction of faces or objects from video files.

• Advanced User Permissions
Multiple user types with customizable permissions allows for the flexibility of users managing their own evidence, while keeping the evidence in a clear chain of custody without the fear of deletion.

• Upload from Multiple Locations
Upload evidence from a PC or your squad car using WiFi or your 4G cellular service.

• Secure File Sharing
Share evidence with your colleagues easily and securely using the built in sharing system.

• File Verification
Our system analyzes each file that is uploaded and assigns a unique SHA256 to allow users to compare file authenticity in case of attempted evidence tampering.

• Retention and Automatic File Deletion
Our system allows you to mark files that will need to be held for a custom set amount of time otherwise after a custom set time the files will be automatically removed.

• Compatible with all PatrolEyes cameras
Works with all of our PatrolEyes cameras both new and old.

Includes:
• Pricing includes 24/7 support
• Biweekly feature releases
• Unlimited storage

PatrolEyes DEMS (Digital Evidence Management Software) is a complete solution to asset management. Simply connect your camera to your PC and the software will do the rest! DEMS will automatically upload and remove the footage from the camera to either your local storage server or a remote storage location. The software allows you to add tags, comments and assign categories to the files and even mark files with an importance rating. DEMS has an advanced permission system to only allow certain users to upload, view, export, or delete data.

**Features**

**Compatible with all PatrolEyes cameras**
Works with all of our PatrolEyes cameras both new and old.

**Advanced user permissions**
Manage multiple users with our advanced permission system. Limit users access to sensitive data and only allow certain users to export evidence and much more.

**Upload from multiple cameras simultaneously**
Depending on your plan you can upload up to 20 cameras simultaneously.

**Local storage**
Use your own local storage server to store your data.

**Chain of custody**
Knowing who accessed what data and when is important. That's why every action is logged!

**Custom data retention periods**
Custom data retention periods help ensure that you optimize storage space but that important files are kept safe.

**Software Plans**

**Basic:**
- 1 software license key
- 90 days of technical support
- Connect up to 4 cameras for simultaneous transfer of data

**Advanced:**
- 1 software license key plus all future updates
- Unlimited technical support
- Connect up to 20 cameras for simultaneous data transfer
THE COMPLETE SOLUTION TO ASSET MANAGEMENT

Simply connect your camera to your PC and the software will do the rest. The software will automatically upload and remove the footage from the camera to either your local storage server, remote storage location or the cloud! Once uploaded, you can easily add notes, assign the files to a case and even mark them with an importance rating. The advanced permissions system allows only certain users to upload, view, export, delete data and much more.

We offer two different solutions for you to choose from. Our enterprise local storage option allows you to keep all the hardware and data in your department, which never leaves your network. Storage options start at 6TB of redundant RAID5, which can be customized based on your needs. Our enterprise cloud storage gives you all of the same features, however your uploaded data will be stored in a safe and secure cloud environment, rather than on-site.

ADVANCED FEATURES

- **ADVANCED WEB SERVER** Allows you to manage unlimited users and permissions to allow remote uploading from any PC.
- **UPLOAD FROM ANYWHERE IN THE OFFICE (LOCAL) / ANYWHERE (CLOUD)** Upload up to 20 cameras simultaneously from anywhere the uploader is installed. Users must be inside your departments local network to upload and access data.
- **REDUNDANT STORAGE** Using RAID5 we are able to keep your data safe even if 25% of the storage drives fail.
- **CHAIN OF CUSTODY** Knowing who accessed what data and when is important. That's why every action is logged!
- **CUSTOM DATA RETENTION PERIODS** Custom data retention periods help ensure that you optimize storage space but that important files are kept safe.

LOCAL STORAGE INCLUDES

- 6TB workstation with monitor and keyboard ($2,500 equipment fee)
- 1 software license key plus all future updates
- Unlimited technical support
- Connect up to 20 cameras for simultaneous data transfer per station
- Create unlimited users & agents

Epaulette Mount
This sturdy leather epaulette shoulder mount connects seamlessly to your PatrolEyes camera using the new modified magnet mount and you can rest assured that you will not lose your camera. The magnets on the front plate of the mount attach to a magnets on the back plate that is inside your vest or shirt.

Covert Button Camera
This is a 65° narrow field of view button camera kit for PatrolEyes cameras. Includes 4 different size buttons that will easily fit on the camera. Also includes buttons for your shirt.

Carrying Case
Use this carrying case to protect and carry your PatrolEyes camera while not in use. Works with all of the full size PatrolEyes cameras.

Wide Angle Camera
This camera is perfect for officers who prefer to wear a lightweight camera and attach the PatrolEyes body camera to their belt instead. The camera has a 128° wide angle field of view which allows you to capture what you would normally see.

8 Camera Docking Station
The PatrolEyes docking station can charge and transfer data from up to 8 cameras simultaneously. Using the PatrolEyes Digital Evidence Management Software (DEMS) and docking station you can automatically upload all files to a PC or the PatrolEyes cloud with one click! Once the files are successfully transferred, DEMS will automatically delete all the files off the device. The docking station saves you valuable time and resources.

Protection Plus Program
Before you drop, scratch, damage, spill on, or break a button - get the PatrolEyes Protection Plus Program. With full coverage for issues with your camera such as electrical malfunctions, broken zoom or SD card reader failure, you are fully covered. With our coverage, your camera is protected for accidents caused by you or others. We will repair your PatrolEyes camera within 5 business days.

PatrolEyes Automatic Video Redaction Software
Our PatrolEyes video redaction software is the fastest redaction software out there! With our simple web interface and automatic face detection our software will save you hours of time. No more need to go though videos frame by frame and apply a crude black box. Our professional software is compatible with all major file formats! Simply upload your file to the website, select face detection and let the software do the rest! You can also select an object such as a credit card, license plate or sign in the video and our software will select and follow that object. Body redaction is also available that will automatically detect a person and redact the whole person. Audio redaction is also possible and easy. Contact us for a free demo.
